The Moon in Taurus

*Forming an easy aspect
to Venus*

*Waning moon for removing
a bad atmosphere*

*Waxing moon for
improving the atmosphere*

*New moon for a new
start*

*Full moon for a blend of
the above*

*Focus your thoughts on the atmosphere in the
home.*

*Take the apple and cut it around the middle,
though make sure you cut around the widest
part of the apple and not stem to stem. As
you cut, say the incantation*

*This home is full of worry and doubt
Under Taurus Moon, I cast this out
My gift of Venus to replace
And harshness absorbed, without a trace*

Place each half of the apple at opposite ends of the house for 24 hours. Continue to concentrate your thoughts on the bad atmosphere being absorbed into the apple halves.

After 24 hours have passed, take each apple half and bury them together away from the house.
