

# Wonderful Success

## *Ingredients*

*Green candle*  
*Sharp tool for carving*

## *Timing*

*The Full Moon in Taurus*

*Spend a good amount of time visualising what a successful outcome looks like to you, even if you are not sure the form of opportunity that success may arrive in.*

*Summarise what you want from an opportunity in one word, keeping in your mind the vision of what that success looks like, feels like, sounds like to you. Focus on the success, the result, not the how of the opportunity.*

*Carve this one word that summarises success into your candle. As you do so, say your incantation*

*Success by this word is what I see  
On this night, success flows to me.*

*Success and I live in harmony.*

*I say yes to opportunity.*

*Light the candle, stay with your candle as it burns and allow the visions, the feelings and the sounds of what that successful outcome is for you to come through as you sit quietly. Be mindful of opportunities that come your way, that may be the route to your successful outcome!*
